

Essay on Politics

When we hear the term politics, we usually think of the government, politicians and political parties. For a country to have an organized government and work as per specific guidelines, we require a certain organization. This is where politics comes in, as it essentially forms the government. Every country, group and organization use politics to instrument various ways to organize their events, prospects and more.

Politics does not limit to those in power in the government. It is also about the ones who are in the run to achieve the same power. The candidates of the opposition party question the party on power during political debates. They intend to inform people and make them aware of their agenda and what the present government is doing. All this is done with the help of politics only.
